SUBJECT: Webinar Announcement

The Department recognizes the challenges of hiring, training, and subsequent billing for the Family Support service with regard to the current training requirement. In response to provider requests for training and billing options for the Family Support service, the following changes/additions have been made. Effective December 29, 2014, the department will now offer online webinar training, "Family Support 101" for FSP Supervisor and FSP Providers through Relias Learning. Upon logging into Relias, click "add a course" and search using the code: MOCHMHC-family support. Successful completion of the webinar training along with additional requirements noted in the policy will allow providers additional options for billing Mo Health Net and POS prior to the completion of the department provided/approved face to face training.

Please note the webinar training can and should not be utilized as a substitute for the face to face training.
